Header: Tried to put

An HTML File together

Starting with My index File

Simple Basic White Header

Main Section: Includes most of my code and I want on my Page to look like(about.html ,index.html and portfolio.html)

The Footer just includes my Copyright Statement.

Step 1

* {   (Selects all margins and paddings)

```
  margin: 0;

  padding: 0;

  box-sizing: border-box;

}

body {

  font-family: 'Arial', sans-serif;

  background-color:white;(Color of my Texts)

  color: rgb(22,21,21) (means I gave it the color Black)

}
```

(this works on the main header and how I want it to look)

```
header {
```

```css
    height: 100px;

    background-color: #b60000;

    color: white;

    font-size: 150%;

    padding: 20px;

    text-align: center;

}

header h1 {

    margin: 0;

}

nav ul {

    list-style: none;

    display: flex;

    justify-content: center;

    padding: 0;

}

nav ul li {

    margin: 0 15px;

}

nav ul li a {

    text-decoration: none;
```
(this decorates the texts example if I wanted a dashed line underneath the text)

```css
    color: white;

    font-weight: bold;

}

main {

    padding: 20px;

}

.intro {

    margin-bottom: 30px;

}

.card-container {

    display: flex;

    justify-content: space-between;

    flex-wrap: wrap;

    gap: 20px;

}

.card {

    background-color: #ffffff;

    border: 1px solid #ddd;

    padding: 20px;

    flex: 1;

    min-width: 250px;

    box-shadow: 0 4px 6px rgba(0, 0, 0, 0.1);
```

```css
    transition: transform 0.3s ease-in-out;

}

.card:hover {

    transform: scale(1.05);

}

footer {

    background-color: #b60000;

    color: white;

    text-align: center;

    padding: 10px;

    margin-top: 40px;

}

.portfolio {

    display: flex;

    flex-direction: column;

    gap: 20px;

}

@media (max-width: 768px) {

    nav ul {

        flex-direction: column;

    }
```

```
    .card-container {

        flex-direction: column;

    }

}
```

Header:

> 1.The header contains the title "Web Design as a Tool for Expression".
>
> 2.The navigation menu (nav) includes links for "Home", "About", and "Portfolio".

Main Section:

> 1.The main section is dedicated to showing the portfolio.
>
> 2. It has a subheader "My Website Design portfolio" (inside an <h3> tag).
>
> 3.An introductory aside (a short paragraph) explains the concept of the portfolio.
>
> Two main portfolio items are displayed, each with:
>
> - A title (<h1>tag) representing the project name.
> - An aside containing a description of the project and the goals .

Footer:

> A footer section at the bottom of the page with the copyright text and my Name
